

National Right to Work Committee

A COALITION OF EMPLOYEES AND EMPLOYERS

NATIONAL HEADQUARTERS BUILDING

July 7, 2011

The Hon. Steny H. Hoyer
1705 Longworth House Office Building

Dear Representative Hoyer:

When Big Labor's "Card Check" scheme was defeated last year, everyone knew they wouldn't give up.

And as expected, the second round of the fight is now being waged by pro forced-unionism militants like Wilma Liebman and Craig Becker within the National Labor Relations Board (NLRB) and the rest of the Obama Administration bureaucracy.

- The real goal of the NLRB's actions against Boeing is really crystal clear: force Boeing into a "Card Check" settlement agreement.
- The NLRB's recently proposed "Ambush Election" rulemaking will allow union officials to force employers to immediately hand over employees' personal information before even defining a bargaining unit. The union could then use this list to begin a "Card Check" corporate campaign and never even bother with the election.
- The Board intends to overturn, via the "Lamons Gasket" case, what have come to be known as "DANA rights," which guarantee employees a secret ballot, even after a union has forced their employer to accept a "Card Check" unionization.

And the list goes on, all designed to help Big Labor force itself on workers who just want to be left alone.

That's why I hope you'll read Dave Bego's book, *The Devil at My Doorstep*, which provides firsthand accounts of the destruction to communities, property, and lives that is produced by Big Labor's "Card Check" campaigns. Dave will explore the NLRB's "Ambush Election Proposal" in his soon to be released book, *The Devil at My Doorstep*.

If you would like to discuss these issues in greater depth, you can contact Greg Mourad, our Vice President for Legislation.

Sincerely,

Mark Mix
President
